- 1 **COMPANY TAX RATE**
No change to the rate of corporate tax.
- 2 **PROVISIONAL TAX**
The provisional tax system and the associated penalties and interest charges are being reviewed. The exemption for persons over 65 years has been increased from R80 000 to R120 000.
- 3 **VAT**
The threshold for compulsory registration increases from R300 000 to R1 million. The minimum threshold for voluntary registration will increase from R20 000 to R50 000 on 1 March 2010. Measures to reduce VAT fraud will be implemented.
- 4 **PENALTIES**
It is proposed that the penalties and the additional taxes imposed by the various Acts be standardised with a more objective test.
- 5 **TRAVEL ALLOWANCES**
Deemed business kilometres will be abolished from 2010/11 and expenditure claimed against a travel allowance can only be based on a log book.
- 6 **MEDICAL AID**
All employer contributions will be treated as a fringe benefit and the employee will be entitled to claim a deduction for these contributions up to the capped amount.
- 7 **DIVIDEND TAX REFORM**
The final change of STC to a withholding tax will take place during the second half of 2010.
8. **ESTATE DUTY ABATEMENT**
It is proposed that spouses be given greater flexibility with the estate duty abatement without the need of trusts and other estate planning devices.
9. **RETIREMENT REFORM**
The possible fusion of provident funds and pension funds is part of the ongoing retirement reform process.
10. **THE TAX ADMINISTRATION**
Additional measures to enhance employees tax administration will be investigated.

On a date still to be announced by the Minister of Finance, STC currently imposed on companies **declaring** dividends will be replaced by a withholding tax to be deducted from dividends when **paid** to shareholders. At the same time the definition of **dividend** will be simplified to include any amount transferred to a shareholder which does not constitute contributed tax capital, comprising share capital and premium.

RATE OF TAX

The rate of tax will remain at 10% unless the dividend is subject to a reduced rate in terms of a double tax agreement with another tax jurisdiction. Dividends paid to shareholders who are SA resident companies, government bodies, pension or benefit funds, approved PBO's or environmental rehabilitation trusts will be exempt from the withholding tax. Dividends paid by registered micro businesses will also be exempt if they do not exceed R200 000 in any year of assessment. Companies will be required to maintain adequate records to identify those shareholders who are exempt and those who enjoy a reduced rate.

LIQUIDATION DIVIDEND

The exemption from STC in respect of dividends declared in anticipation of deregistration, liquidation or winding up of a company out of revenue profits derived prior to 1 March 1993 and capital profits prior to 1 October 2001 will remain until the new withholding tax is introduced, provided the necessary steps are taken to wind up the company within the prescribed period of time of six months after the dividend has been declared.

STC CREDITS

Any unutilised STC credits at the effective date may be carried forward for five years. Dividends declared on or after the effective date will first be applied to absorb the STC credits and the company declaring the dividend will be required to notify the shareholders of the extent to which the dividend is shielded from tax by STC credits or constitutes a capital distribution for CGT purposes.

PASSIVE HOLDING COMPANY

To prevent the use of private investment companies to avoid the payment of the dividend withholding tax, passive holding companies, which earn more than 80% of their gross income in the form of interest and dividends and in which more than 50% of the participation rights are held by five or less resident natural persons, will be taxed at 10% on their dividend income and at a rate which is likely to be 40% on their other taxable income. However, they will not be required to withhold tax on any dividends paid out of such dividends and other taxable income.

SKILLS DEVELOPMENT LEVY

The Skills Development Act seeks to restructure the existing training system and upgrade the level of skills and access to skills by workers.

Directors remuneration, on the same basis as for PAYE, will be subject to the Skills Development Levy.

The Skills Development Levy is payable by employers at a rate of 1% of the payroll as from 1 April 2001 (previously 0,5%).

Employers paying annual remuneration of less than R500 000 are exempt from this levy as from 1 August 2005.

TAX RATES

TRUSTS - 2009 AND 2010

Taxable income

All taxable income

Rates of tax

40% of each R1

Special trusts are taxed at the rates applicable to individuals.

A *special trust* is one created solely for the benefit of a person affected by a mental illness or serious physical disability which prevents that person from earning sufficient income to maintain himself, or a testamentary trust established solely for the benefit of minor children who are relatives of the deceased. Where the person for whose benefit the trust was established dies prior to or on the last day of the year of assessment or the youngest beneficiary in the case of a testamentary trust turns 21 years of age prior to or on the last day of the year of assessment, the trust will no longer be regarded as a special trust.

TRUSTS

LOSSES

A loss incurred by a trust cannot be distributed to beneficiaries. The loss is retained in the trust and carried forward to the next year as an assessed loss.

ROYALTIES TO

NON-RESIDENTS

As from 1 January 2009, no deduction will be allowed in respect of royalty payments if:

- the intellectual property was at any time wholly or partly owned by a South African resident or the taxpayer, or
- the intellectual property was developed by the taxpayer or a connected person who is a resident.

If the royalty is subject to a withholding tax at a rate of at least 10% then a deduction of one third of the royalty will be allowed.

CONNECTED

PERSONS

As from 8 January 2008, where a depreciable asset is acquired by a taxpayer and it was held by a connected person within a period of two years before that acquisition, the purchaser may claim capital allowances on the lower of the purchase price or the following deemed cost:

- the net tax value of the asset to the seller, plus
- the recoupment on the disposal by the seller, plus
- the taxable capital gain on the disposal by the seller.

Labour brokers and personal service providers are regarded as deemed employees.

For years of assessment commencing on or after 1 March 2009:

- A *labour broker* is a natural person who, for reward, provides a client with other persons to render a service for the client or procures such other persons for the client and remunerates such persons.
- A *personal service provider* is a company (including a close corporation) or trust where any service rendered on behalf of the entity to its client is rendered personally by any person who is a connected person in relation to such entity, and one of the following provisions apply:
 - the person would have been regarded as an employee of the client, if the service was not rendered through an entity; or
 - the person or entity rendering the service must perform such service mainly at the premises of the client and such person or entity is subject to the control or supervision of such client as to the manner in which the duties are performed; or
 - more than 80% of the income derived from services rendered is received from one client or associated person in relation to the client.
- The entity will, however, not be regarded as a *personal service provider* where such entity employs three or more full-time employees throughout the year of assessment, none of whom are connected persons in relation to such entity.

Implications

- A labour broker not in possession of an exemption certificate will be subject to PAYE at the rates applicable to individual taxpayers.
- A personal service provider will be subject to PAYE at the rate of 33% (2008 : 34%) in the case of a company and 40% in the case of a trust.
- Where the entity qualifies because of the 80% rule no PAYE will be required to be deducted where the entity provides an affidavit confirming that it is not a personal service provider.
- The entity may apply to SARS for a tax directive for a lower rate of tax.
- Deductions available to deemed employees will be limited to remuneration for services rendered, contributions to pension, provident and benefit funds, legal expenses, bad debts, rent, finance charges, insurance, repairs and maintenance and fuel, incurred wholly and exclusively for trade and any amount which was included in taxable income and is now refunded.

Years of assessment ending between 1 April 2007 and 31 March 2008

Taxable income	Rates of tax
R 0 - R 43 000	Nil
R 43 001 - R300 000	10% of the amount over R 43 000

Years of assessment ending between 1 April 2008 and 31 March 2009

Taxable income	Rates of tax
R 0 - R 46 000	Nil
R 46 001 - R300 000	10% of the amount over R 46 000
R300 001 +	R25 400 + 28% of the amount over R300 000

Years of assessment ending between 1 April 2009 and 31 March 2010

Taxable income	Rates of tax
R 0 - R 54 200	Nil
R 54 201 - R300 000	10% of the amount over R 54 200
R300 001 +	R24 580 + 28% of the amount over R300 000

Applies if

- All shareholders or members throughout the year of assessment are natural persons who hold no shares in any other *private* companies or members' interest in any other close corporations or co-operatives
- Gross income for the year of assessment does not exceed R14 million (2006 : R6 million)
- Not more than 20% of the gross income and all the capital gains consist collectively of *investment income* and income from rendering a *personal service*
 - *Investment income* includes any annuity, interest, rental income, royalty or any income of a similar nature, as well as dividends and any proceeds derived from investment or trading in financial instruments (including futures, options and other derivatives), marketable securities or immovable property
 - *Personal service* includes any service in the field of accounting, actuarial science, architecture, auctioneering, auditing, broadcasting, broking, commercial arts, consulting, draughtsmanship, education, engineering, entertainment, health, information technology, journalism, law, management, performing arts, real estate, research, secretarial services, sport, surveying, translation, valuation or veterinary science, which is performed personally by any person who holds an interest in the company or close corporation, except where such Small Business Corporation employs three or more unconnected full-time employees for core operations
- The company, co-operative or close corporation is not an employment entity.

Investment incentive

The full cost of any asset used in a process of manufacture and brought into use for the first time on or after 1 April 2001, may be deducted in the tax year in which the asset is brought into use. As from 1 March 2005, all other depreciable assets are written off on a 50:30:20 basis.

EXEMPTIONS

INDIVIDUALS

- Dividends received or accrued from South African companies are generally not subject to tax.
- All interest received by or accrued to non-residents is exempt from tax provided the individual is physically absent from South Africa for at least 183 days, and did not carry on business in South Africa through a permanent establishment during the year of assessment.
- Interest received by resident natural persons:

Persons under 65 years	R21 000	(2009 : R19 000)
Persons aged 65 years and over	R30 000	(2009 : R27 500)

Interest includes distributions from property unit trusts and foreign interest and dividends. The foreign interest and dividend exemption is limited to R3 500 (2009 : R3 200).
- Unemployment insurance benefits.

Retrenched employees

The R30 000 exemption on lump sum payments to certain employees is also granted to employees who become unemployed as a result of retrenchments (irrespective of such an employee's age) because the employer has ceased to operate or because of personnel reduction.

This exemption does not apply to directors of companies or members of close corporations if they at any time held an interest of more than 5% in that entity.

Compensation

As from 1 January 2008, compensation awards paid by an employer on the death of an employee will be exempt to the extent of R300 000 less any previous retrenchment exemption enjoyed by that employee.

DEDUCTIONS

EMPLOYEES

As from 1 March 2002 employees or holders of office who derive remuneration are restricted in deducting expenditure incurred which relates to employment to the following:

- Deductions in respect of contributions to a pension fund or retirement annuity fund
- Legal expenses
- Wear and tear allowance
- Bad debts allowance
- Doubtful debts allowance
- Premiums paid in terms of an allowable insurance policy
 - to the extent that the policy covers the person against loss of income as a result of illness, injury, disability or unemployment, and
 - in respect of which all amounts payable in terms of the policy constitutes income as defined
- Home office expenses as from 1 March 2005
- Refunded awards for services rendered and refunded restraint of trade awards from 1 January 2009.

Current pension fund contributions

7,5% of remuneration from retirement-funding employment or R1 750, whichever is the greater. Retirement-funding employment refers to income which is taken into account to determine contributions to a pension or provident fund.

Excess contributions are not carried forward to the next year of assessment but are accumulated for the purpose of determining the tax free portion of the lump sum upon retirement.

Arrear pension fund contributions

Up to a maximum of R1 800 per annum. Any excess may be carried forward.

Current retirement annuity fund contributions

15% of taxable income from non-retirement-funding employment, or R3 500 less current contributions to a pension fund, or R1 750, whichever is the greater. Any excess may be carried forward. Contributions based on lump sum payments received on or after 1 September 1995 are added back to taxable income for the purposes of calculating the average rate of tax.

Reinstated retirement annuity fund contributions

Up to a maximum of R1 800 per annum. Any excess may be carried forward.

Medical expenses and medical aid deductions

- **65 years and older:** May claim all qualifying expenditure incurred and medical aid contributions paid by the taxpayer
- **Younger than 65 years:** May claim medical aid contributions up to the capped amount and qualifying expenditure to the extent that it exceeds 7,5% of taxable income before this deduction
- **Younger than 65 years (but with an immediate family member who has a disability):** If the taxpayer, spouse or child (including an adopted child or stepchild) has a disability, the deduction allowed is all qualifying expenditure and medical aid contributions paid by the taxpayer
- The capped amount is calculated at R625 (2009 : R570) for each of the first two beneficiaries and R380 (2009 : R345) for each additional beneficiary as defined by the medical aid scheme
- Qualifying expenditure includes:
 - contributions to medical aid funds in excess of capped amount
 - medical aid fringe benefit determined by the employer
 - payments to medical practitioners, nursing homes and hospitals
 - payments to pharmacists for prescribed medicines
 - payments for physical disabilities, including remedial teaching and costs incurred for mentally handicapped persons
 - payments for the benefit of any dependents
- **Disability** means a moderate to severe limitation of a persons ability to function or perform daily activities as a result of physical, sensory, communication, intellectual or mental impairment, if the limitation lasts more than a year and is diagnosed by a registered medical practitioner
- Recoveries of expenses (including amounts received from medical aid savings account) reduce the claim
- Expenditure paid by a taxpayer on behalf of a spouse or children can only be claimed in the taxpayer's own tax return.

LUMP SUM

BENEFITS

As from 1 October 2007 the taxable portion of a lump sum on retirement or death is the lump sum less R300 000 less any contributions that have not been allowed as a tax deduction plus any tax free portion previously claimed. The balance is subject to tax as follows:

Taxable portion of lump sum	Rates of tax
R 0 - R300 000	18%
R300 001 - R600 000	R 54 000 + 27% of the amount over R300 000
R600 001 +	R135 000 + 36% of the amount over R600 000

The taxable lump sum cannot be set-off against any assessed loss of the taxpayer.

WITHDRAWAL

BENEFITS

As from 1 March 2009 the taxable portion of a pre-retirement lump sum from a pension or provident fund is the withdrawal less any transfer to a new fund less R22 500. The balance is subject to tax as follows:

Taxable portion of withdrawal	Rates of tax
R 0 - R300 000	18%
R300 001 - R600 000	R 54 000 + 27% of the amount over R300 000
R600 001 +	R135 000 + 36% of the amount over R600 000

RING-FENCED

ASSESSED LOSSES

As from 1 March 2004 losses from secondary trades will be ring-fenced, and will not be available for set-off against income from any other trade.

It will only apply to an individual whose taxable income, before setting off any assessed loss or balance of assessed loss, is equal to or exceeds the level at which the maximum rate of tax is applicable.

For the restrictions to apply the person must have incurred an assessed loss from the secondary trade in at least three years of assessment during any five year period, or have carried on any of the following "suspect" trades:

- Any sporting activities
- Any dealing in collectibles
- The rental of accommodation, vehicles, aircraft or boats (unless at least 80% of the asset is used by persons who are not relatives of such person for at least half of the year of assessment)
- Animal showing
- Farming or animal breeding (otherwise than on a full-time basis)
- Performing or creative arts
- Gambling or betting.

The taxpayer will be able to circumvent these provisions where he can prove that there is a reasonable prospect of deriving taxable income within a reasonable period and where he complies with other tests, unless losses have been incurred in carrying on a suspect trade in at least six out of ten years.

All provisional taxpayers are required to remit two provisional tax payments a year. A third voluntary payment may be required to avoid interest being charged.

First Year of Assessment

Where a taxpayer has not been assessed previously, a reasonable estimate of the taxable income must be made. The basic amount cannot be estimated at nil as was previous practice, unless fully motivated.

First Payment

One half of the total tax in respect of the estimated taxable income for the year is payable six months before the financial year end.

The estimate of taxable income must not be less than the taxable income reflected on the latest assessment. A lower estimate may be used if justified, subject to the consent of SARS.

Second Payment

The balance of tax due is payable on or before the last day of the financial year end in respect of the estimated taxable income for the year.

As from 1 March 2009 the estimate may not be less than 80% of the taxable income as finally determined including lump sums and capital gains. The basic amount is no longer applicable for the second provisional tax calculation.

If the above requirement is not met, a penalty of 20% of the provisional tax underpaid may be imposed.

Third Payment

Third provisional payments are only applicable to individuals and trusts with taxable income in excess of R50 000 and companies and close corporations with taxable income in excess of R20 000.

Such payments should be made before 30 September in the case of a taxpayer with a February year end and within six months of other year ends to avoid interest being charged.

Permissible Reductions in the Basic Amount for first payment

Capital gains and taxable portions of lump sums are not included in provisional tax estimates for the first period and will therefore not affect the basic amount. If however an estimate lower than the basic amount is used, such amounts must be included.

These amounts must however be included in the second and third provisional tax payments.

Estimates

SARS has the right to increase any provisional tax estimate to an amount considered reasonable.

Persons over 65

Persons over 65 years whose taxable income does not exceed R120 000 (2009 : R80 000) are exempt from provisional tax, provided that such income consists exclusively of remuneration, rental, interest or dividends.

Persons under 65

Persons under 65 years who do not carry on business, and whose taxable income does not exceed the tax threshold or whose interest, foreign dividends and rental income does not exceed R20 000 (2008 : R10 000) are exempt from provisional tax.

Directors of Private Companies

As from 1 March 2006 the specific inclusion of directors of private companies in the definition of a provisional taxpayer has been deleted.

DIRECTORS

PAYE

As from 1 March 2002 directors of private companies and members of close corporations will be deemed to have received a monthly remuneration, subject to PAYE, calculated in accordance with the following formula:

$$Y = \frac{T}{N}$$

Where

Y = deemed monthly remuneration

T = the balance of remuneration paid or accrued in the last year of assessment after the deduction of contributions to pension funds, retirement annuity funds, qualifying medical aid contributions and income protection plans by the employee, qualifying donations made by the employer on behalf of the employee, lump sum awards from the employer and withdrawals from retirement funds and share incentive benefits.

N = number of completed months which the director/member was employed by the company/close corporation during the last year of assessment.

Actual remuneration paid is still subject to employees tax. The employees tax payable thereon must be reduced by the amount of employees tax payable on the deemed remuneration.

As from 1 March 2004, the formula calculated remuneration will not apply to directors of private companies where the directors earn at least 75% of their remuneration in the form of fixed monthly payments.

DEEMED CAPITAL

DISPOSAL OF SHARES

As from 1 October 2007, the proceeds on the sale of an equity share or collective investment scheme unit will automatically be of a capital nature if held continuously for at least three years except:

- a share in a shareblock company
- a share in a non-resident company
- a hybrid equity instrument.

Previously the taxpayer could elect that the proceeds on the sale of a listed share held for at least five years be treated as capital.

ENVIRONMENTAL

EXPENDITURE

Expenditure incurred by a taxpayer to conserve or maintain land is deductible if it is carried out in terms of a biodiversity management agreement with a duration of at least five years and the land used by the taxpayer in his trade consists of, includes or is in close proximity to the land which is subject to this agreement. Where the conservation or maintenance of land owned by the taxpayer is carried out in terms of a declaration of at least 30 years' duration, the expenditure incurred is deemed to be a donation to the Government which qualifies as a deduction under section 18A.

In certain circumstances where the land is declared a national park or nature reserve an annual donation based on 10% of the lesser of cost or market value of the land is deemed to be made to the Government and qualifies for a section 18A deduction in the year the declaration is made and in each of the subsequent nine years.

Recoupments arise where the taxpayer breaches the agreement or violates the declaration.

FIXED TRAVEL ALLOWANCES

As from 1 March 2006, 60% (previously 50%) of the fixed travel allowance is subject to PAYE and the full allowance is disclosed on the employee's IRP5 certificate, irrespective of the quantum of business travel.

EXAMPLE

An employee owns a vehicle with a cost of R85 000 (including VAT) and receives a travel allowance of R2 200 per month. The employee travelled 27 000 km during the year of assessment and has maintained no other records of business travel.

The employee is thus deemed to have travelled 18 000 private kilometres and 9 000 (27 000 less 18 000) business kilometres.

Fixed cost element	<u>R39 928</u>	=	147,9	cents
	27 000 km			
Fuel cost element			62,5	cents
Maintenance cost element		=	<u>24,2</u>	cents
Total cost per kilometre			<u><u>234,6</u></u>	cents
Travelling allowance received		=	R26 400	
Deduction allowed: 9 000 km business at 234,6 cents per km		=	<u>R21 114</u>	
Taxable portion of allowance		=	<u><u>R 5 286</u></u>	

REIMBURSIVE TRAVEL EXPENSES

Where an employee receives a reimbursement based on the actual business kilometres travelled, no other compensation is paid to the employee and the costs are calculated in accordance with the prescribed rate of 292 cents (2009 : 292 cents) per kilometre, no employees tax need be deducted, provided the business travel does not exceed 8 000 kilometres per annum. The reimbursement must be disclosed under code 3703 on the IRP5 certificate. No PAYE is withheld and the amount is not subject to taxation on assessment.

If the business kilometres travelled exceed 8 000 kilometres per annum, or if the reimbursive rate per kilometre exceeds the prescribed rate, or if other compensation is paid to the employee the allowance must be disclosed separately under code 3702 on the IRP5 certificate. No PAYE is withheld and the amount is subject to taxation on assessment.

Accurate records of the opening and closing odometer readings must be maintained in all circumstances. Unless accurate travel records are kept, the first 18 000 kilometres travelled per annum are in respect of private travel and maximum business kilometres which may be claimed are limited to 14 000 per annum.

The cash equivalent of taxable benefits granted to employees is taxable.

USE OF COMPANY-OWNED VEHICLE

The determined value for the fringe benefit is the cash cost excluding VAT, finance charges and interest. The employee will be taxed on 2,5% (2006 : 1,8%) per month of the determined value of the motor vehicle having the highest value, and 4% per month of the determined value of any second or subsequent vehicle used primarily for private purposes.

If the employee bears the full cost of:

- all fuel used for private use (including travel between place of residence and employment), the monthly value is reduced by 0,22% (2006 : R120);
- maintaining the vehicle (including repairs, servicing, lubrication and tyres), the monthly value is reduced by 0,18% (2006 : R85).

If the employee has the use of a company car and receives a travel allowance for another vehicle, the company car is taxed at 4% of the determined value and not 2,5%. If the costs for the other vehicle are reimbursed based on actual distance travelled on business and the rate does not exceed 292 cents (2008 : 246 cents) per kilometre the 2,5% (2006 : 1,8%) will still apply.

The private use by an employee of a motor vehicle shall have no value if:

- the vehicle is available to and used by all employees and the private use is infrequent and incidental to its business use, or
- where the nature of the employee's duties requires regular use of the vehicle for performance of duties outside normal hours of work and it is not used for private purposes other than travel to and from work.

Where it can be shown that the distance travelled for private purposes (including travelling between the employee's place of residence and his place of employment) is less than 10 000 km, the fringe benefit may be reduced upon assessment by the ratio of this distance to 10 000 km.

The provision of a company car results in a deemed consideration and thus liable for output VAT for the vendor employer.

The deemed consideration, inclusive of VAT, is as follows:

Motor vehicle/Double cab	0,3 % of cost of vehicle (excl. VAT) per month
Bakkies	0,6 % of cost of vehicle (excl. VAT) per month

MEDICAL AID CONTRIBUTIONS

The amount by which an employer's contribution to a medical aid scheme exceeds R625 (2009 : R570) for each of the first two beneficiaries as defined by the medical aid scheme and R380 (2009 : R345) for each additional beneficiary will be taxed as a fringe benefit for the employee. If the employer makes a lump sum payment for all employees, the effective benefit is determined in accordance with a formula, which will have the effect of apportionment amongst all employees concerned.

HOLIDAY ACCOMMODATION

The employee is taxed on the prevailing market rate if the property is owned by the employer or rented from an associated entity; or the actual rental if the employer rented the accommodation.

LONG SERVICE AND BRAVERY AWARDS

The first R5 000 of the value of any asset awarded, excluding cash, is not subject to tax.

USE OF BUSINESS CELLPHONES AND COMPUTERS

As from 1 March 2008 no taxable value will be placed on the private use by employees of employer owned cellphones and computers which are used mainly for business purposes.

LOW INTEREST/INTEREST-FREE LOANS

- The amount taxed is the difference between interest payable on the loan by the employee and the official interest rate
- Short-term loans, not granted regularly, which are not in excess of R3 000, are not taxable benefits
- A loan to the employee to enable him to further his own studies is not a taxable benefit.

SUBSISTENCE ALLOWANCES

If an employee is obliged to spend at least one night away from his usual residence in South Africa on business, the employer may pay an allowance for personal subsistence and incidental costs without such amounts being included in the employee's taxable income, subject to the employee travelling for business within the following month.

If such allowance is paid to an employee and that employee does not travel for business purposes by the end of the following month, the allowance becomes subject to PAYE in that month.

If the allowances do not exceed the amounts or periods detailed below, the total allowance must be reflected under code 3705 on the IRP5 certificate.

Where the allowances exceed the amounts or periods detailed below, the total allowance must be reflected under code 3704 on the IRP5 certificate.

The following amounts are deemed to have been expended by an employee in respect of a subsistence allowance:

Local travel

- R80 (2009 : R73,50) per day or part of a day for incidental costs; or
 - R260 (2009 : R240) per day or part of a day for meals and incidental costs.
- Where an allowance is paid to an employee to cover the cost of accommodation, meals or other incidental costs the employee must on assessment prove how much he spent while away on business. This claim is limited to the allowance received.

Overseas travel

Actual accommodation costs plus an allowance per country as set out on www.sars.gov.za (2009 : \$215) per day for meals and incidental costs incurred outside the Republic. The deemed expenditure will not apply where the absence is for a continuous period in excess of six weeks.

RESIDENTIAL ACCOMMODATION SUPPLIED BY EMPLOYER

As from 1 March 1999, where accommodation is provided to an employee and is not owned by the employer or associated entity, the value of the fringe benefit to be taxed shall be the greater of the formula value or the rental and other expenses paid by the employer.

The formula will nevertheless apply if it is:

- customary for the industry to provide free or subsidised accommodation to employees;
- necessary for the particular employer to provide free accommodation for proper performance of the employee's duties or as a result of frequent movement of employees or lack of existing accommodation; and
- provided for bona fide business purposes, other than obtaining a tax benefit.

As from 1 March 2008, no rental value will be placed on the:

- supply of accommodation in the Republic to an employee away from his usual place of residence in the Republic
- supply of accommodation in the Republic to an employee away from his usual place of residence outside the Republic for a two year period. This concession does not apply if the employee was present in the Republic for more than 90 days in the tax year prior to the date of arrival for the purpose of his duties. There is also a monthly monetary cap of R25 000.

RELOCATION OF AN EMPLOYEE

The following items of expenditure borne by the employer for relocation, appointment or termination are exempt from tax:

- transportation of the employee, members of his household and personal possessions
- such costs as SARS may allow, eg new school uniforms, replacement of curtains, bond registration and legal fees, transfer duty, motor vehicle registration fees, cancellation of bond and agent's fee on sale of previous residence (expenses which do not qualify are loss on sale of the previous residence and architect's fees for design of or alterations to a new residence)
- hiring temporary residential accommodation for the employee and members of his household for up to 183 days after transfer.

PUBLIC BENEFIT ORGANISATIONS

An organisation will qualify as a Public Benefit Organisation (PBO) if it carries out one or more public benefit activities in a non-profit manner substantially in South Africa. A public benefit activity includes the activities as set out in the Ninth Schedule to the Act, as well as activities approved by the Minister of Finance in the Gazette.

DEDUCTIONS DONATIONS

Donations to certain designated PBO's will qualify for a tax deduction
Individuals - Limited to 10% (2007 : 5%) of taxable income before the deduction of donations and medical expenses

Companies - Limited to 10% (2007 : 5%) of taxable income before the deduction of donations.

Notes

- 1 Wear and tear may be claimed on either a reducing balance method or on a straight-line basis, in which case certain requirements apply
- 2 Removal costs incurred in moving business assets from one location to another are not deductible as these are regarded as being capital in nature. Wear and tear may be claimed on the same basis as that applied to the assets concerned
- 3 When an asset is acquired for no consideration, a wear and tear deduction may be claimed on its market value at date of acquisition
- 4 Prior to 8 January 2008, where an asset is acquired from a connected person, wear and tear may only be claimed on the lesser of the original cost to the seller or the market value at date of sale
- 5 The acquisition of "small" items at a cost of less than R5 000 (2006 : R2 000) per item may be written off in full during the year of acquisition

STRATEGIC**ALLOWANCES**

Asset type	Conditions for annual allowance	Annual allowance
Strategic projects (note)	An additional industrial investment allowance is allowed on new and unused assets used for preferred qualifying strategic projects which were approved between 31 July 2001 and 31 July 2005 Any other qualifying strategic projects	100% of cost 50% of cost
Pipelines	New and unused structures contracted for and construction commenced on or after 23 February 2000	10% of cost
Electricity and telephone transmission lines and railway tracks	New and unused structures contracted for and construction commenced on or after 23 February 2000	5% of cost
Airport hangars and runways	Construction commenced on or after 1 April 2001	5% of cost
Rolling stock	Brought into use on or after 1 January 2008	20% of cost
Port assets	Brought into use for the first time by the taxpayer on or after 1 January 2008	5% of cost
Environmental assets	As from 8 January 2008 for new and unused assets Environmental treatment and recycling assets Environmental waste disposal assets of a permanent nature	40% in 1st year 20% in each of the 3 subsequent years 5% of cost

Note:

- The allowance is limited to the income derived from the industrial project and the excess is deductible in the immediately succeeding year of assessment, subject to certain other limits

CAPITAL**GAINS TAX**

Capital Gains Tax (CGT), applicable since 1 October 2001, applies to a resident's worldwide assets and to a non-resident's immovable property or assets of a permanent establishment in the Republic.

DISPOSALS

CGT is triggered on disposal of an asset.

- Important disposals include:**

- abandonment, scrapping, loss, etc
- vesting of an interest in an asset of a trust in the beneficiary
- distribution of an asset by a company to a shareholder
- granting, renewal, extension or exercise of an option

- Deemed disposals include:**

- termination of South African residency
- a change in the use of assets
- the transfer of an asset by a permanent establishment
- the reduction or discharge of a debt by a creditor without full consideration, subject to certain exclusions

- Disposals exclude:**

- the transfer of an asset as security for a debt or the release of such security
- issue of, or grant of an option to acquire, a share, debenture or unit trust
- loans, credit, security and release of debt

CALCULATION OF A CAPITAL GAIN/LOSS

- A capital gain or loss is the difference between the proceeds and the base cost

BASE COST

- **Expenditure included in the base cost:**
 - cost of acquisition, transfer, stamp duty and similar costs
 - remuneration of advisors and consultants
 - costs of moving an asset and improvement costs
- **Expenditure excluded from the base cost:**
 - expenses deductible for income tax purposes
 - interest paid, raising fees (except in the case of listed shares and business assets)
 - expenses initially recorded and subsequently recovered
- **Methods for determining base cost:**
 - Time apportionment base cost

Example:

If an asset cost R250 000 on 1 October 1998 and was sold on 30 September 2002 for R450 000, as CGT was implemented on 1 October 2001, the base cost is:

Base cost expenditure	R250 000
Add:	R150 000*
Time apportionment base cost	R400 000

*Proceeds from disposal $\left. \begin{array}{l} \text{R450 000} \\ \text{(R250 000)} \end{array} \right\} \times \frac{3}{4}$

Note 1: When determining the number of years to be included in the time apportionment calculation, a part of the year is treated as a full year.

Note 2: Where expenditure in respect of a pre-valuation date asset was incurred on or after 1 October 2001 and an allowance has been allowed in respect of that asset, a second time apportionment formula is applied.

- valuation as at 1 October 2001
- 20% of the proceeds

PROCEEDS

- The total amount received or accrued from the disposal
- **Excluded:**
 - amounts included in gross income for income tax purposes
 - amounts repaid or repayable or a reduction in the sale price
- **Specific transactions:**
 - connected persons - market value
 - deceased persons - market value as at date of death
 - deceased estates - the disposal is deemed to be at the base cost

Individuals and special trusts	25%	10%
Companies	50%	14%
Trusts	50%	20%

Unit Trusts (CIS): the unitholder is taxable

Retirement Funds: not taxable

EXCLUSIONS AND REBATES

- **Annual exclusion**

Natural persons and special trusts R17 500 (2008 : R16 000).
Natural persons in the year of death R120 000 (2007 : R60 000)

- **Exclusions**

- A primary residence, used for domestic residential purposes by a natural person or a special trust, where the proceeds do not exceed R2 million. Where the proceeds exceed R2 million, the exclusion is R1,5 million (2006 : R1 million) of the calculated capital gain.
- Personal use assets, not used for the carrying on of a trade
- Lump sums from insurance and retirement benefits. This exclusion does not apply to second-hand policies
- Small business assets, limited to R750 000 (2007 : R500 000)

Requirements:

- gross asset value - less than R5 million
- should be sole proprietor for at least five years, 55 years old, suffer from ill-health, be infirm or deceased
- Compensation, prizes and donations to certain PBO's
- Assets used by registered micro businesses for business purposes

ROLLOVER RELIEF

Gain is disregarded until the disposal of the replacement asset or is recognised over a five year period commencing when the replacement asset is brought into use

- Certain involuntary disposals and the replacement of qualifying business assets
- Transfer of assets between spouses
- Shareblock conversions to sectional title

CORPORATE TRANSACTIONS

Income tax and CGT relief exists for certain transactions. These are:

- Asset for share transactions
- Amalgamation transactions
- Intra-group transactions
- Unbundling transactions
- Liquidation, winding up or deregistration transactions

VALUATIONS

Valuations should have been obtained on or before 30 September 2004. For certain categories of assets these valuations should have been lodged with the first tax return submitted after 30 September 2004, or such other time as the Commissioner may allow, provided the valuation was in fact done prior to the requisite date

- Where the market value of any intangible asset exceeds R1 000 000
- Where the market value of any unlisted investment exceeds R10 000 000
- Where the market value of any other asset exceeds R10 000 000

NON-RESIDENT SELLERS OF IMMOVABLE PROPERTY

As from 1 September 2007, where a non-resident disposes of immovable property in South Africa, for R2 million or more, the purchaser will be obliged to withhold the following taxes from the proceeds:

<i>Seller's status</i>	<i>Withholding tax</i>
Natural person	5,0%
Company	7,5%
Trust	10,0%

LIMITATION OF DEDUCTIONS

Expenditure paid should be apportioned, to the extent that only expenditure actually incurred in a year of assessment is deductible. The remainder of the pre-paid expenditure will be deductible in subsequent years of assessment.

This does not apply:

- where the goods, services or benefits, in respect of which the expenditure was incurred, are supplied or rendered within six months after the end of the year of assessment
- where the total pre-paid expenditure does not exceed R80 000 (2008 : R50 000)
- to expenditure, the timing and accrual of which is specifically determined
- to pre-paid expenditure payable in terms of a legislative obligation.

RESEARCH AND DEVELOPMENT

Where an amount was incurred in respect of qualifying scientific and technological research and development costs on or after 2 November 2006, the following deductions will be allowed:

- 150% of operating research and development costs in respect of activities undertaken in South Africa for the purposes of the discovery of novel, practical and non-obvious information; or devising, developing or creating any invention, design or computer program as defined in their applicable acts, or knowledge essential to the use of such research property.
- Research and development capital costs (including the cost of any building, machinery, plant, implements, utensil or article of a capital nature) on a 50:30:20 basis.

PATENT / INTELLECTUAL PROPERTY

As from 1 January 2004, a taxpayer may claim an allowance for the cost of acquiring any invention, patent, design, copyright, other property which is of a similar nature or knowledge connected with the use of such patent, design, copyright or other property or the right to have such knowledge imparted.

Where the cost exceeds R5 000, the allowance is limited to:

- 5% of the cost in respect of any invention, patent, copyright or other property of a similar nature; or
- 10% of the cost of any design or other property of a similar nature.

Prior to 8 January 2008, where the intangible was acquired from a connected person, the allowance is limited to the lesser of the cost to the connected person or the market value.

No allowance is allowed in respect of any expenditure incurred by the taxpayer on or after 29 October 1999, in respect of the acquisition of any trademark or property of a similar nature.

REINVESTMENT RELIEF

Taxpayers can defer taxable recoupments and capital gains on the sale of business assets (excluding buildings) if they fully reinvest the sale proceeds in other qualifying assets within a period of three years. Tax on the recoupment and capital gain upon the disposal of the old asset is spread over the same period as wear and tear may be claimed for the replacement asset.

As from 1 January 2001 residents of South Africa are taxable on their worldwide income.

Resident means

- A natural person who is ordinarily resident in South Africa; or
- As from 1 March 2005 a natural person who is physically present in South Africa for at least 91 days in the current and each of the preceding five tax years (previously three) and at least 915 days (previously 549 days) during the five (previously three) preceding tax years; or
- A company or trust that is incorporated, established, formed or which has its place of effective management in South Africa.

Resident excludes

- A natural person, who was previously regarded as a deemed resident, if physically absent from South Africa for a continuous period of at least 330 days from the date of departure
- A person who is deemed to be exclusively a resident of another country for the purposes of the application of any double taxation agreement, as from 26 February 2003.

Exemptions

- Remuneration for services rendered outside South Africa during the tax year if such person was outside South Africa for periods in aggregate of at least 183 days, of which 60 days were continuous
- Non-South African pension and social security payments.

Foreign Dividends

As from 1 June 2004 foreign dividends received from a non-resident company, including deemed dividends, are taxable, except if:

- The shareholder holds 20% of the equity of the distributing company
- The distributing company is a listed company and residents hold more than 10% of its equity share capital
- The distributing company is a controlled foreign company (CFC) and the dividends do not exceed amounts deemed to be the resident shareholder's income under the CFC rules
- The profits from which the dividends were declared are taxable in South Africa or arose from dividends declared by a resident company.

Interest is deductible where it is incurred in the production of foreign dividends to the extent that they are included in gross income. Excess interest paid may be carried forward to the next tax year.

A resident is entitled to a credit for any withholding tax paid in respect of a foreign dividend that is included in gross income.

Controlled Foreign Companies

A CFC is a non-resident company, in which residents own or control at least 50% of the participation or voting rights.

Where a resident alone or with connected persons, holds at least 10%, but not more than 20% of the participation rights, they may elect that the foreign company is deemed a CFC

- A resident must include in his income -
$$\text{Net income of CFC} \times \frac{\text{Resident's participation rights in CFC}}{\text{Total participation rights in the CFC}}$$
- The net income of a CFC should be calculated according to South African tax principles. If the calculation results in a loss, the deductions are limited to income and the excess is carried forward.

Exemptions

- The net income (including capital gains) of the CFC that is derived from an active bona fide business establishment situated outside South Africa
- Income otherwise taxed in South Africa at normal rates
- Foreign dividends received by the CFC from another CFC to the extent that the income from which the dividend is declared has already been included in the resident's taxable income
- Net income attributable to interest, royalties or similar income payable to the CFC by other foreign companies forming part of the same group of companies.

Tax Rebates

- Where a resident has to include in his taxable income any foreign sourced income or capital gain, proportionate amount of the net income of the CFC, foreign dividends, or other amounts attributed in terms of the Income Tax Act, a rebate in respect of any foreign taxes paid or payable in respect of such amount to a foreign government is allowed
- The rebate is limited to the foreign tax payable and may not exceed:
$$\text{Total SA normal tax} \times \frac{\text{Foreign income}}{\text{Total taxable income}}$$
- If the rebate exceeds normal tax payable on the foreign income, the excess may be carried forward to the next tax year

General

- A loss incurred in carrying on a business outside South Africa may not be set off against income in South Africa
- The amount of foreign tax payable must be converted to South African currency at the last day of the tax year by applying the average exchange rate for that tax year
- Foreign income is converted to Rands by applying the spot exchange rate at the date the income accrues. Natural persons and non-trading trusts may elect to apply the average exchange rate for that tax year
- Where foreign income may not be remitted because of restrictions imposed by the source country, such income is included in the resident's gross income in the tax year during which that amount may be remitted to South Africa
- Tax withheld in a foreign country in respect of South African sourced income is recognised as a deduction against such income rather than as a rebate against South African tax payable on that income.

PRE – TRADING

EXPENDITURE

As from 1 January 2004, the deduction of expenditure and losses incurred in connection with, but prior to the commencement of trade are allowed, provided the expenditure and losses could have been deductible had the trade commenced. However, such expenditure and losses are ring-fenced, in that they can only be set off against income from that trade. The balance is carried forward and can be claimed in the next tax year.

PRE – PRODUCTION

INTEREST

Interest and finance charges incurred on any borrowing for the acquisition, installation, erection or construction of any machinery, plant, building or improvements to a building or other specified capital assets is deductible when the asset is brought into use in the production of income.

BURSARIES

AND SCHOLARSHIPS

Scholarships or bursaries granted to enable any person to study at a recognised educational institution are exempt from fringe benefit tax. Where the benefit is granted to an employee, the exemption will not apply unless the employee agrees to reimburse the employer in the event that the studies are not completed. Where the beneficiary is a relative of the employee, the exemption will only apply if the annual remuneration of the employee is less than R100 000 (2007 : R60 000) and to the extent that the bursary does not exceed R10 000 (2007 : R3 000).

BROAD BASED

EMPLOYEE EQUITY

As from 1 January 2005 there is a deduction aimed at incentivising employer companies to grant shares in themselves to a broad-base of employees. Employer companies may issue qualifying shares up to a limit of R50 000 (2008 : R9 000) per employee in the current tax year and in the immediately preceding four (2008 : two) tax years. A tax deduction limited to a maximum of R10 000 (2008 : R3 000) per annum per employee will be allowed in the employer's hands. Provided the employee holds onto the shares for at least five years there will be no tax consequences for the employee, other than CGT.

RESTRAINT

OF TRADE

Gross Income

Any amount received by or accrued to any natural person, labour broker or personal service provider for a restraint of trade imposed on such person, should be included in the recipient's gross income in the year of receipt or accrual.

Deduction

Where an amount was incurred in respect of a restraint of trade imposed on any person, the deduction, in a year of assessment, is limited to the lesser of:

- the amount apportioned over the period for which the restraint applies; or
- one-third of the amount incurred per annum

No deduction is allowed where the amount did not constitute income in the hands of the recipient.

Farming income is subject to the provisions of the First Schedule to the Income Tax Act. Farmers who are not companies are also allowed to average their farming income in determining their tax liability.

SUMMARY OF THE FIRST SCHEDULE'S MAIN PARAGRAPHS

2 – 5 & 9	Valuation of livestock and produce	14 – 16	Plantation farming
6 – 7	Election of standard values	17	Sugar cane destroyed by fire
8	Ring-fencing of livestock acquisitions	19	Rating formula for farmers (who are not companies)
11	Donations and in specie dividends	20	Expropriation of farming land
12	Capital development expenditure		
13	Forced sales and drought relief provisions		

RATING FORMULA APPLICABLE TO FARMERS

Because a farmer's income fluctuates from year to year, he may elect to be taxed in accordance with a rating formula. In terms of this formula, the farmer is taxed on average taxable income in the current and preceding four years. Should he elect to make use of this formula, it is binding upon him in future years and he is not permitted to make use of the provisions relating to government livestock reduction schemes, rating formula for plantation farmers and provisions relating to sugar cane farmers.

For a farmer commencing farming operations the average taxable income from farming in the first year of assessment ending on or after 1 January 2008 will be two thirds of the taxable income for that period.

CAPITAL DEVELOPMENT EXPENDITURE (PARAGRAPH 12)

The following items of capital expenditure, incurred during a year of assessment, are deductible against farming income:

- expenditure which is not restricted to taxable income from farming:
 - eradication of noxious weeds and alien invasion vegetation and prevention of soil erosion
- expenditure which is restricted to taxable income from farming:
 - dipping tanks, building of roads and bridges for farming operations
 - dams, irrigation schemes, boreholes, pumping, plants and fences
 - additions, erection of, extensions and improvements to farm buildings not used for domestic purposes
 - costs of establishing the area for and the planting of trees, shrubs and perennial plants
 - carrying of electric power from main power lines to farm machinery and equipment.

The excess expenditure over taxable income from farming is carried forward to the next year of assessment.

Machinery, implements, utensils and articles for farming purposes are written off over three years on a 50:30:20 basis. This does not apply to motor vehicles used to convey passengers, caravans, aircraft (excluding crop-spraying aircraft) or office furniture and equipment. Normal wear and tear may be claimed on these items.

NON-FARMING INCOME

Income from non-farming sources should be shown separately.

The most common examples of non-farming income are:

- interest received
- income derived by a farmer from carrying on a trade other than farming
- annuities
- rental income from farmland.

DOUBLE TAXATION AGREEMENTS

AND WITHHOLDING TAXES

Double Taxation Agreements provide for relief in respect of royalties and know-how withholding taxes.

Notes

- The above rates are provided as a guide only. A number of the above DTA's provide for alternative rates, including zero, to be applied in specific circumstances. To view the complete Double Tax Agreements refer to www.sars.gov.za.
- Currently South Africa has no withholding tax on dividends or interest. The Minister of Finance announced in 2007 that a new dividend withholding tax is to replace STC. The effective date of this change has not yet been announced.

MARRIED

IN COMMUNITY OF PROPERTY

Taxpayers who are married in community of property are taxed on half of their own interest and rental income and half of their spouses' interest and rental income, no matter in whose name the investment is registered (except for property excluded from the joint estate). All other taxable income is taxed only in the hands of the spouse who receives that income.

VENTURE

CAPITAL INVESTMENTS

As from 1 July 2009 a taxpayer will be entitled to a deduction of 100% of the cost of shares issued by a venture capital company if the following conditions are met:

- a natural person may only deduct R750 000 in a year of assessment and a total of R2 250 000
- a listed company and any company held 70% directly or indirectly by that listed company can deduct a maximum of the cost of up to 10% of the total equity interest in the venture capital company
- the venture capital company must be approved by SARS as a qualifying company and fulfil a number of pre-conditions.

LEARNERSHIP

ALLOWANCE

As from 1 March 2006 an employer will be allowed to deduct a special allowance in respect of learnership agreements. Where the employer entered into a registered learnership agreement with a learner who:

- was previously employed by the employer or an associated institution the employer will be entitled to deduct the lesser of:
 - 70% of the prescribed remuneration of that learner; or
 - R20 000 (2006 : R17 500)
- was not previously employed by the employer or an associated institution the employer will be entitled to deduct the lesser of:
 - the prescribed remuneration of that learner; or
 - R30 000 (2006 : R25 000)

When the learner completes the registered learnership agreement the employer can claim the lesser of:

- the prescribed remuneration of that learner; or
- R30 000 (2006 : R25 000).

The prescribed remuneration is the annual equivalent adjusted pro rata to the period of the learnership agreement if shorter than 12 months.

As from 1 July 2006 an employer employing disabled persons as learners may deduct an initial allowance of 150% of the annual salary of an existing learner, up to a maximum of R40 000 and 175% for an unemployed learner up to a maximum of R50 000. The tax allowance for disabled persons completing a learnership will be 175% of the annual salary up to a maximum of R50 000.

Special provisions apply in respect of learnerships and apprenticeships extending over a number of years.

TRANSFER

DUTY

ON IMMOVABLE PROPERTY (ON OR AFTER 1 MARCH 2006)

Transfer duty, if property is purchased by natural persons:

Property value	Rates of tax
R0 - R500 000	0%
R500 001 - R1 000 000	5% on the value above R500 000
R1 000 001 and above	R25 000 plus 8% on the value above R1 000 000

Transfer duty, if property is purchased by companies, close corporations or trusts, is at a flat rate of 8% on full purchase consideration

Notes

- No transfer duty will be chargeable if the transaction is subject to VAT
- Where a registered vendor purchases property from a non-vendor, the VAT notional input tax credit is limited to the quantum of transfer duty payable. A notional input tax credit is only claimable to the extent to which the purchase price has been paid
- Certain exemptions apply to corporate restructuring
- The acquisition of a contingent right in a trust that holds a residential property or the shares in a company or the member's interest in a close corporation, which owns residential property, comprising more than 50% of its CGT assets, is subject to transfer duty at the applicable rate
- Residential property includes dwellings, holiday homes, apartments and similar abodes, improved and unimproved, zoned for residential purposes. It excludes a structure of five or more units, rented by five or more unconnected persons. It also excludes fixed property forming part of the enterprise of a VAT vendor
- The purchaser of the shares or member's interest or beneficial interest in a trust will be liable to pay transfer duty in respect of residential property
- Liabilities of the entity are to be disregarded when calculating the fair value of the contingent right in the trust, the shares in the company or the member's interest in the close corporation
- Any person who does or omits to do anything with the intent to evade transfer duty may be charged with additional duty up to twice the amount of duty payable. Such a person is guilty of an offence and liable on conviction to a fine or imprisonment for a period not exceeding 60 months.

NATIONAL CREDIT

ACT

As from 1 June 2006, the Usury Act was repealed and replaced by the National Credit Act. The maximum lending rates of interest are now calculated as follows:

Maximum Prescribed Interest Rates

Mortgage agreements	$\{(Repo\ rate \times 2.2) + 5\}$ per year
Credit facilities	$\{(Repo\ rate \times 2.2) + 10\}$ per year
Unsecured credit transactions	$\{(Repo\ rate \times 2.2) + 20\}$ per year
Short term credit transactions	5% per month
Other credit agreements	$\{(Repo\ rate \times 2.2) + 10\}$ per year
Incidental credit agreements	2% per month

The National Credit Act does not apply to credit agreements where the consumer is a juristic person with a turnover above a defined threshold, the state or an organ of state, a large agreement as defined, where the lender is the SARB or a foreigner.

STAMP DUTY

ON LEASES OF IMMOVABLE PROPERTY

For every R100 or part thereof of rent and other consideration payable for every period of 12 months:

R 0,50

As from 1 June 2007, a lease for an indefinite period must be stamped based on a two year period. Any overpayment of stamp duty can be refunded under certain conditions.

Prior to 1 June 2007, if the calculated stamp duty is less than R500, no stamp duty is payable.

No stamp duty is payable on leases of less than five years

The maximum stamp duty on a lease is 8% of the value of the property (prior to 1 June 2007 : 10%)

No stamp duty is payable on leases entered into after 1 April 2009

SECURITIES TRANSFER TAX

As from 1 July 2008 the stamp duty on the transfer of unlisted shares and the uncertificated securities tax on listed shares is abolished and replaced with the securities transfer tax at a rate of 0,25% of the consideration, closing price or market value (whichever is greater) on the transfer, cancellation or redemption of any listed or unlisted share, members' interest in a CC or cession of a right to receive distributions from a company or CC.

- On listed securities, this must be paid by the 14th of the month following the month during which the transfer occurred
- On unlisted securities, this must be paid by the end of the 2nd month following the end of the month during which the transfer occurred.
- If not paid in full within the prescribed period interest will be imposed at the prescribed rate and a 10% penalty will be payable
- Duty of 0,5% is payable on the creation or increase in authorised share capital in terms of the Companies Act.

TURNOVER TAX MICRO BUSINESSES

As from 1 March 2009 a simplified turnover-based tax system will be implemented for small sole proprietors, partnerships and incorporated businesses with a turnover less than R1 million per year.

This turnover-based presumptive tax system will be elective. After joining the system, qualifying businesses will be required to remain in the system for a minimum of three years (provided they remain within the monetary threshold). Once a business has elected to migrate out of the system, it will not be able to migrate back for a period of three years. Personal services rendered under employment-like conditions and professional services will be **excluded** from this tax system.

Turnover	Rates of tax
R 0 - R100 000	Nil
R100 001 - R300 000	1% of the amount over R 100 000
R300 001 - R500 000	R 2 000 + 3% of the amount over R 300 000
R500 001 - R750 000	R 8 000 + 5% of the amount over R 500 000
R750 001 - R1 000 000	R 20 500 + 7% of the amount over R 750 000

 - by inheritance or donation from a non-resident
- With effect from 1 October 2001, donations between companies forming part of the same group of companies

ESTATE

DUTY

Rates of Estate Duty

- Persons deceased prior to 1 October 2001 - 25%
- Persons deceased on or after 1 October 2001 - 20%

Exemptions from Estate Duty include:

- Persons deceased prior to 1 March 2006, the first R1 500 000
- Persons deceased on or after 1 March 2006, the first R2 500 000
- Persons deceased on or after 1 March 2007, the first R3 500 000
- Persons deceased on or after 1 January 2009, all proceeds of life assurance and lumpsum benefits from approved retirement funds
- Any bequest to a surviving spouse or a public benefit organisation

EXECUTORS

REMUNERATION

An executor is entitled to the following remuneration:

- the remuneration fixed by deceased in the will, or
- 3,5% on gross assets
- 6% on income accrued and collected from date of death

Executors remuneration is subject to VAT where the executor is registered as a vendor.

VAT was introduced on 30 September 1991 at 10% and increased to 14% on 7 April 1993. The VAT system comprises three types of supply:

- **Standard-rated supplies** – supplies of goods and services subject to the VAT rate in force at the time of supply
- **Exempt supplies** – supplies of certain services not subject to VAT. Vendors making exempt supplies are not entitled to input credits
- **Zero-rated supplies** – supplies of certain goods or services subject to VAT at zero percent. The following are, amongst others, specifically zero-rated: brown bread, maize meal, samp, mealie rice, dried maize, dried beans, lentils, pilchards (excluding pet food or sardines supplied in tins), milk powder (unflavoured), dairy powder blend, rice, fresh vegetables (excluding canned, bottled and dehydrated), fresh fruit, vegetable oil used for cooking (excluding olive oil), milk including long-life milk (excluding condensed, flavoured, sweetened and evaporated milk), cultured milk, brown wheaten flour, raw eggs, pod vegetables, diesel, petrol and illuminating paraffin. Export sales and services are zero-rated, subject to specific requirements. Supplies from South Africa to an Industrial Development Zone will be treated as exports.

VAT input tax credits may in general not be claimed in respect of entertainment and sedan and double-cab type motor vehicles

All fee-based financial services are subject to VAT from 1 October 1996 with the exception of:

- premiums payable in respect of life policies issued in terms of the Insurance Act and contributions to pension, provident, retirement annuity and medical aid funds; and
- buying or selling of derivatives or granting of an option.

REGISTRATION REQUIREMENTS

As from 1 March 2009 a vendor is required to register for VAT when his turnover in a 12 month period is likely to exceed R1 million (previously R300 000). Where turnover is less than R1 million, but exceeds R20 000 (R50 000 as from 1 March 2010 and R60 000 in the case of commercial rental establishments) in a 12 month period, a vendor can register voluntarily. All vendors that deregister from the VAT system in light of the increase in the VAT registration threshold to R1 million will be allowed to pay the exit VAT over a period of six months.

A registered micro business may not be registered for VAT.

Where turnover is less than R1,5 million (previously R1,2 million) in a 12 month period, VAT returns may be rendered every four months. Where turnover is less than R30 million in a 12 month period, VAT returns may be rendered every two months. Turnover in excess of R30 million results in VAT returns having to be rendered every month. Farmers, with a turnover of less than R1,5 million (previously R1,2 million), may render VAT returns every six months.

Normally a vendor accounts for VAT on an invoice basis. However, where turnover in a 12-month period is likely to be less than R2,5 million, one can apply to be placed on a payments basis if the vendor is a natural person or an unincorporated body of persons whose members are natural persons.

From 1 March 2005 a tax invoice must reflect the purchaser's trade name and VAT registration number, if the value is in excess of R3 000.

FOREIGN CAPITAL ALLOWANCE

Individuals, older than 18 years, in good standing with SARS, can invest R2 million (2006 : R750 000) abroad. Income accruing thereon may also be retained abroad.

SINGLE DISCRETIONARY ALLOWANCE

Natural persons over 18

R500 000 p.a.

Natural persons under 18 (limited to travel allowance)

R160 000 p.a.

The single allowance per individual per calendar year covers the following:

- Monetary gifts and loans
- Donations to missionaries
- Maintenance transfers (only father, mother, brother or sister)
- Travel allowance
- Study allowance (not for residents living temporarily abroad).

Up to R5 000 in cash per person may be taken on visits abroad.

MEDICAL/DENTAL EXPENSES ABROAD

No limit, against original documentary evidence of cost.

FULL-TIME STUDENTS

Travel and maintenance costs are included in the single discretionary allowance. Tuition and academic fees may be paid directly to the institution concerned against original documentary evidence, without any limit.

GIFTS - KRUGERRAND COINS

R30 000 p.a. per applicant

This forms part of the single discretionary allowance.

WEDDING EXPENSES AND BAR/BAT MITZVAH CEREMONIES

Per occasion (*to non-residents*)

R50 000

PHILATELIC AND NUMISMATIC IMPORTS

No limit applicable excluding South African gold coins minted from 1962.

DIRECTORS FEES (TO NON-RESIDENTS INCLUDING EMIGRANTS)

No limit applicable. Must be supported by a copy of the directors resolution confirming the amount paid together with proof of non resident status.

GUARANTEES (by non-residents in respect of financial assistance to South African residents who are not affected persons)

No limit applicable.

EMIGRANTS

There is no longer a specific "settling-in allowance". Where the foreign capital allowance, as above, has not been fully utilised, a top-up is permitted up to:

- R4 000 000 per family unit
- R2 000 000 per single emigrant
- R1 000 000 overall insured value per family unit or single emigrant of household and personal and other effects.

INHERITANCES

Non-resident beneficiaries are entitled to transfer their inheritance irrespective of whether the deceased was resident or non-resident in South Africa. Former South African residents must have completed emigration formalities in order to qualify.

REMITTABLE INCOME

The income earned by an emigrant on his "blocked" assets is freely remittable abroad, after providing for income tax, where applicable.

BLOCKED ASSETS

Assets in excess of the settling-in allowance remain “blocked” and fall under the control of an authorised dealer to be released for payment of authorised gifts and local expenses including donations to South African residents, within an overall limit of R100 000 per annum.

Applications to export blocked assets are subject to a 10% exit levy.

LOCAL VISITS BY EMIGRANTS

R75 000 p.a. per family unit from blocked funds at a rate of R3 000 per day for adults and R1 500 per day per child under 12 years. Direct return flights may be paid locally from blocked funds.

RESTRICTIONS ON LOCAL FINANCIAL ASSISTANCE

Foreign companies or foreign owned South African companies may borrow locally up to 300% of the total shareholders’ investment subject to certain conditions.

FOREIGN INVESTMENT IN SOUTH AFRICA

Non-residents enjoy unrestricted rights to invest in gilts and shares listed on the Stock Exchange and export the proceeds on the sale thereof. Interest and dividends are also freely remittable. Loans by non-residents to South African individuals/entities require prior Exchange Control approval.

TAXATION OF

NON-RESIDENTS

INTEREST

- All interest received by or accrued to non-residents is exempt from tax, provided the individual is physically absent from South Africa for at least 183 days, and did not carry on business in South Africa through a permanent establishment during the year of assessment
- As from 1 April 1996 all interest received by or accrued to any company managed or controlled outside South Africa is exempt from tax unless such company carries on business in South Africa (ie branches of foreign companies).

DIVIDENDS

Dividends declared on or after 1 October 1995 are not subject to NRST.

ROYALTIES

Subject to the double tax agreements, royalties paid to non-residents are subject to a final withholding tax of 12%.

Residents require the approval of the Department of Trade and Industry and Exchange Control for payments of a royalty to a non-resident.

OTHER INCOME

Non-residents will continue to be taxed on South African source income only.

PAYMENT TO NON-RESIDENT ENTERTAINERS

A withholding tax of 15% is payable by non-resident sports persons and entertainers on income earned in South Africa.

INDUSTRIAL POLICY

PROJECTS

An additional investment allowance in respect of projects approved by the Minister of Trade and Industry will be available to brownfield expansions for upgrade or greenfield projects in respect of wholly new and unused manufacturing items. The additional investment allowance, subject to limitations, is 55% of the cost of the assets or 35% if no preferred status. There is also an additional project related training allowance of R36 000 per employee limited to R30 million or R20 million if no preferred status.
